***Allowable Subject Matter***

Claims 1-13 and 24-32 are allowable over the prior art of record.

The reasons for allowance for claim 1 can be found in the prior office action mailed to the Applicant on 10/30/06.

The following is an examiner's statement of reasons for allowance for claim 24:

With regards to claim 24, the cited prior art alone or in combination fail to teach or fairly suggest at least M processing units (PUs), each of the M PUs having compare circuitry for comparing each of the sequence of input data to a pattern stored in each of the M PUs and generating a compare output, wherein an address pointer points to the pattern in each of the M PUs, wherein the address pointer is modified in response to a logic state of the compare output and an operation code stored with the pattern in combination with the rest of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
